### Hundreds Visit Flower Show

The Newton Highlands Garden Club has put on a genuine community affair. For two days—Tuesday and Wednesday—the Hyde School has been filled to capacity by hundreds of visitors viewing the exhibits of flowers, fruits and vegetables. As one entered the building the garden shop was doing a thriving business in the sale of houseplants, bright flower containers, fir pillows, books and many-colored aprons. On entering the exhibition hall the wealth of color of flowers and vegetables was almost overpowering.

The arrangements and specimen blooms were a credit to the taste and skill of the exhibitors, while the vegetables in variety and perfection of form presented real problems to the judges for their decisions.

The culling table drew much attention, especially the jars put up by the men of Newton Highlands. The children's exhibits were unusually good in choice and combination of material. Much imagination was shown in the arrangements, expressing the names of books and songs.

There were in all, seventy-three classes. The sweepstakes prize, awarded for the most firsts, was won by Mrs. Clarence E. Churchill. Cabage, W. Bartz, Pumpkin, Allan R. Shaw, Tomato, K. J. Walte, Squash, Asparagus, and the best vegetable was won by Mrs. Clarence E. Churchill.

Flower arrangement, over eleven years, Nancy Churchill. Flower arrangement, under eleven years, Betsy Atwood. Story book arrangement, Benny Muckenhaupf.

"My best" vegetable, Nancy Churchill.

Under its present name and form of organization the Newton Highlands Garden Club has been an active participant for over ten years in community affairs. Original club and interests were conducted by the Conservation Committee, the Junior boys and women's club, and for a few years as the Garden Club of the Women's Club. The desire for membership also by men resulted in its separation from the Women's Club and presently it has so functioned, but has co-operated closely both with the Women's Club and the Improvement Association. The membership is limited to fifty-one, and many of the monthly meetings are held in private homes. There is a long waiting list of those who are desirous of having a part in the varied activities, some of which are: 1. Prizes for attractive decorations at Christmas; 2. Co-operation in the Christmas Creche children's; 3. Baskets of gifts for the Stone Institute and Newton Home for Aged People; 4. Flowers for the base hospitals at Fort Devens and Camp Edwards; the Marine Hospital at Brighton and the Service Club at Shirley; candy and cigarettes have also been supplied; 5. Spring flower and vegetable exhibitions in the fall; 7. Local beautifying improvements.

The monthly meetings are addressed by authorities on flowers, shrubs, lawns, gardens, and all allied subjects. During the war months the meetings have been held in members' homes with picnic suppers. The current officers are: President, Miss Mary R. Straff; Vice President, Mrs. Leonard T. Jenny; Secretary, Mrs. Wm. J. Skinner; Treasurer, Warren B. Koenig.

### 23,756 Assessed Poll Taxes

The figures announced this week by the Newton Board of Assessors show that the number of men assessed for poll taxes in Newton this year was 23,756, compared with 23,019 assessed last year.

Although members of the armed forces are entitled to abatement of the tax, many have preferred to pay it. The \$2 tax is assessed on every male resident who was 20 years old or over on Jan. 1. The names of the men and women over 20 are listed each year by policemen assigned to canvass all homes in the city. Although they are listed, the women are not required to pay a poll tax. The action of the Board of Registrars of Voters, is used as a guide to ascertain eligibility to vote. Only those new residents whose names are on the lists may register as voters. Voters whose names do not appear on the lists are dropped from the voting register, but they may be replaced if they prove that the absence of their names from the lists is due to errors instead of removal from the city.

# Proclamation

## TO THE PEOPLE OF THE UNITED STATES

## Proclamation

RECOGNIZING THE FACT that in carrying the war into enemy territory, we shall need greater amounts of money than any nation has ever asked from its citizens in all history, I, FRANKLIN D. ROOSEVELT, President of the United States of America, do officially proclaim that on Thursday, the ninth of September, 1943, the Third War Loan shall be launched.

As Commander-in-Chief, I hereby invoke every citizen to give all possible aid and support to this Third War Loan drive, not only so that our financial goal may be reached, but to encourage and inspire those of our husbands and fathers and sons who are under fire on a dozen fronts all over the world. It is my earnest hope that every American will realize that in buying War Bonds in this Third War Loan he has an opportunity to express voluntarily and under the guidance of his conscience, the extent to which he will "back the attack."

The American people supported well the first and second War Loan drives and in fact did even more than was asked of them. Our need for money now is greater than ever, and will continue to grow until the very day that Victory is won; so we must ask far more sacrifice, far more cooperation than ever before.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

DONE at the City of Washington, this twenty-sixth day of July, in the year of our Lord nineteen hundred and forty-three, and of the Independence of the [SEAL] United States of America the one hundred and sixty-eighth.

By the President:

CORDELL HULL

Secretary of State.

## Newton in Sports

By Saul Eselberg

A precedent has been broken. For the first time in schoolboy history (in these "ere parts") high school gridiron teams will dominate tomorrow's sport pages instead of being puppet to college eleven giants who have reigned in the past. In just 22 more days Newton and Rindge Tech will enter in Newton's second war-time football opening, and inaugurate a new "work chart" for newspaper sport headlines.

The reason for the climb of schoolboy football to the limelight and the decline of college Saturday games (to the concern of Massachusetts grid fans) are not too astonishing. Announcements linking from college athletic director, chairman of the announcements fall along this line: Football disbanded—Impossible to field a reasonable team. Depleted manpower—Coaching staffs hit by draft. Student personnel scant for building new squads.

Army bans soldier students at colleges from participating in sports. Boston University, Northeastern, Boston College and Harvard athletic directors had this "three point figuring tablet before their business eyes" but not even three aspirins could snap a three way, burning headache. BU, BC and NU have officially abandoned the winter sport. Harvard will play informal ball but it hardly could be called Harvard.

Thus with these Boston vicinity grid squads squeezing football off their athletic lists this season, Hub and eastern Mass. football will start schoolboy games. Sport pages will feature such classics as Newton-Waltham, Medford-Malden, Arlington-Melrose instead of Harvard-Dartmouth, BC-Fordham, BU-Northeastern.

Tufts College, the only other Boston grid college has announced that at Medford football will be a bigger and better game. With the Navy student manpower to bolster their squad, Tufts should easily have a standout team. In fact reports have it that BC ball-toters of last season are now naval toters for the Tufts pigskin mail.

Therefore never before has a high school the best possible opportunity to cash in on the disbanding of big time formal football around Boston promising better games before larger crowds. Standing room only at Stadiums like our own D. O. Johnson Field are a sure thing. More appealing and larger schedules will be in the offering.

Last May, Ralph Sanborn, manager of athletics at Newton High announced the 1943 football schedule. Here is the program Newton fans will flock to see come Saturday grid time.

Sept. 25, Rindge; October 2, Melrose (away); Oct. 9, Brockton (away);

Oct. 16, Malden; Oct. 23, Watertown; Oct. 30, Medford (away); November 6, Quincy; Nov. 13, Waltham; Thanksgiving, Brookline (away).

What a drawing card Newton has picked! Nine games, five home and four away. And this schedule was announced last May. There may be add ons.

Maybe, this will be a big year for high school football. It certainly shouldn't be a poor one.

Next week—Comparing 1942 Newton High with 1943 Newton High.

## OPENS PIANO STUDIOS

Cecilia Petersen Wilkner, who announces the opening of her piano studios in Newton Highlands and West Newton, is a graduate and member of the faculty of the Faelten Pianoforte School of Boston.

She was born in Copenhagen, Denmark, and came to this country as a child, receiving her education here.

Miss Wilkner studied music under the late Carl Faelten, well known musician, pianist and educator and later became a co-teacher with him at the Faelten School. Miss Wilkner has had a great deal of success teaching in Newton, in addition to her regular school activities.

Musicales and recitals are given frequently during the season, by her Newton pupils, in solo, two piano and ensemble playing, also class exhibitions. She is a firm believer in the musical training of very young children, so that it will benefit them through life, and lead them to true musicianship.

The meeting was called to order by Vice-President Orville Clapper with his deft and dainty touch of the dinner gong. Music was under the capable direction of "Jim" Melcher ably assisted at the piano by Perley Hilliard. Our District Meeting to be held Sept. 16th in Worcester, at the Banquet Hotel. All who can are urged to attend.

"Matty" Ruane introduced the speaker of the day who was one of the originators of the sightseeing industry in this locality and at present a wholesale florist. Mr. Israel Lieberman of Brookline, Mass. Those present enjoyed a period of relaxation by taking a "Sightseeing" "Bus" Trip with Mr. Lieberman as a Barker party. To conform to the spirit of the times to save gasoline, we remained in our luncheon chairs while the speaker took us on a "Trip" through old Boston, Charleston, Jacksonville, Brookline and Cambridge, in the characteristic style so familiar to us all. To tell it was a most enjoyable and interesting "Travel" event. Our program continued to be congratulated for inserting a humorous speaker between two serious ones.

## POTTER-MEYER

Miss Antonette Hunter Meyer and Winthrop Ferguson Potter, son of Mrs. Jesse Potter of Lexington were married on Saturday afternoon, August 28. The double ceremony was performed at four o'clock by Dr. Daniel Marsh, president of Boston University, in the garden at the home of the bride's parents, Mr. and Mrs. Alfred H. Meyer of 80 Beaumont ave., Newtonville. Roses and gladioli decorated their home and the reception was held with phlox and white and lavender.

Given in marriage by her father, the bride wore her mother's wedding gown of cream silk crepe and lace. Her tulle veil was caught to pearl flowers from her mother's dress and she carried a bouquet of white gladioli and stephanotis. Miss Kathryn Meyer was her sister's maid of honor and Mrs. Edward Brummer and Miss Cynthia A. Stetson, both of New Hampshire, were the bridesmaids. The honor attendant wore a red and white dress and carried a matching bouquet. The bridesmaids wore pink gowns and carried bouquets of pink and lavender gladioli. Penelope and David Sloan of Newton Highlands, who were brides of pink were the flower girls. They carried ribbons which formed the aisle. Robert T. Bushnell Returns

We are all very glad to have our fighting Attorney General back with us again. Bob Bushnell looks hale and hearty and thoroughly rested. My guess is that the fur will fly in the near future. A man of his calibre doesn't just disappear from the scene for two whole months on a routine vacation, especially when the general public has ignored his hares and abouts. I suspect that considerable state business was tucked away in his travelling-bag. "I will tell. But in the meantime, Mr. Attorney General, may I respectfully suggest that you will find it beneficial in more ways than one to do all you can to keep the gentlemen of the press happy. I think I understand some of the difficulties under which you have labored and I am not particularly blaming you for "telling off" some of the more persistent members of the Fourth Estate. However, it is a well-known fact that a bad press is called was one of the important factors in the very unhappy existence which Herbert Hoover led while he was Vice President of the White House. Incidentally, the whole and blame Mrs. Roosevelt left himself in for some terrible headaches whenever he was asked to give a too quick a "brush-off." "Nuf sed.

The Hull-Wellesley Feud  
Most of the discussion in the press recently concerning the unfortunate feud between Cordell Hull and Summer Welles deals with the merest of the points involved. That is entirely proper. However, what I want to say is that the feud is not now the long-distance angle to it is the fact that the two men understand all the implications of this relentless battle between the two powerful figures in the vitally important department of Secretary of State. Specifically, what is the meaning of the looking forward to for the past year or two? Has he not been severely concerned over the state of Hull's health and his advancing age? Has he not been aware of Hull's long absence from his office at a time when we were engaged in a desperate struggle for our lives? Has he not assumed that Welles, the biggest man in the whole department, was perfectly capable of overhauling Hull was forced to retire? Hull is over seventy and has already served over ten years in the State Department. Welles, on the other hand, is a younger stretch than any previous holder of his post. The removal of Welles from the picture, who is left to carry on? It is not difficult to see that the man in the picture is a man of the future. It is not difficult to see that the man in the picture is a man of the future. It is not difficult to see that the man in the picture is a man of the future.

The picture is very bad, as I view it. It might even be necessary to draft a man from the outside of the State Department. It is not difficult to see that the man in the picture is a man of the future. It is not difficult to see that the man in the picture is a man of the future. It is not difficult to see that the man in the picture is a man of the future.

## Kiwanis Activities

Kiwanians Encourage Victory Gardening

The Newton Kiwanis Club has done much during the past summer to develop and encourage others to develop victory gardens. At their meeting last Tuesday, members reported on this work and brought samples of the crops raised in their own gardens. Some garden products were brought down from gardens as far away as New Hampshire. Exhibits were judged and graded according to quality, after which they were auctioned off for the benefit of the Kiwanis Underprivileged Child Fund for Newton children. The program section of the meeting was presided over by Mr. Benjamin Lantz who was presented by Mr. James Riggs, President.

Mr. Jack Janse was awarded first decision on Hubbard Squash. Mr. Ernie Maroux received the second prize. Mr. Newton Noel, Treasurer of the local club, won the honorable and maverick Bill Janse was given second honors on tomatoes.

President James Riggs announced a meeting of delegates to the district Kiwanis convention to be held recently. Many Newton members are planning to attend the district convention which will be held at the New Ocean Hotel in Swampscott on Sept. 22nd, 23rd and 24th.

The Greater Boston Swimming Pool sponsored by the Newton Recreation Service of Boston, in cooperation with the American Red Cross and the Newton Recreation Department, was held at Crystal Lake on Saturday, August 28.

Alexander Huston, Red Cross Swimming Team, was the winner of the 100 yard race. He was assisted by units from the Army and Navy. The swimming pool was a very successful one and the various swimming drills, life saving and water polo, were very popular. ## Start Work On Street Repairs

### NEWTON NEWS

Work on the reconstruction of Commonwealth ave., Auburndale, near Northumbria Park, was started on Monday. This project had been delayed due to shortages of help, until work was completed on the construction of Tansywood rd., West Newton, formerly a private way, which has been accepted by the city.

Street Commissioner John D. Haughey originally had 325 men in his department but the number has now dropped to 204. The number officially remaining in the street department is 251, 47 of whom are on leaves of absence.

While the reconstruction work is being done on Commonwealth ave., the highway will be kept open for traffic. Bituminous concrete material will be used to pave the street on both the north and south roadways and the grade will be reduced so that the reconstruction in the center will be on a higher level than the roadway.

The preservation will be graded to conform with the rest of the reservation along the route. This project is expected to be completed in about three weeks.

Following completion of the Commonwealth ave. project it is planned to start work on the building of Beacon st., Waban, from Gordon rd. to Windsor rd. This project is expected to cost about \$27,500.

## Arsenal Awarded Coveted "Star"

Watertown Arsenal has received notification that it is the recipient of the coveted "star" to its Army-Navy "E" Award flag. Colonel John Mather, commanding officer of the Arsenal, announced today.

Notice of the award came in a letter from the Honorable Robert P. Patterson, Under Secretary of War, congratulating the 127 year old Army Ordnance Plant on "meritorious services on the production front."

Approximately 3000 employees added to the Watertown Arsenal payroll since the original Army-Navy "E" Award will now receive E pins for their share in winning the star. Colonel Mather said that his bicycle had been stolen on Thursday afternoon from 320 Washington st., Newton.

## Tell About Japan Fighter Pilots

### NEWTON NEWS

The following story was written by Sergeant Wallace R. McLain, 718 Pioneer Drive, Glendale, California, a Marine Corps Combat Correspondent.

Kearney Mesa, California—August Japanese fighter pilots are not fanatical, proud encounter, and considerably inferior to our own fliers, in opinion of Lieutenant Colonel Luther S. Moore, 35, U.S.M.C., 113 Beaumont avenue, Newtonville, Massachusetts. An aviator officer, he is back from two-and-a-half years of duty in the Pacific.

As group commander of several Marine air squadrons, and himself a combat pilot, the Lieutenant Colonel found the Japanese aviators "ready to run when we turned toward them."

"You can't draw a definite conclusion about the Japanese as good pilots, and some are poor," he explained. "It is, however, their inferiority to our own."

Our men take advantage of all the good points of a plane. They are not thinking of more successful. They exploit a plane's advantages and minimize its disadvantages. It is so much a question of having better planes. I'd say it's the pilots above all else."

Lieutenant Colonel Moore spent four months on Guadalcanal, during a brief period of which he was commander of all the fighter planes in the Solomon Islands. For several months he commanded air squadrons, and twice has set up Marine air bases.

Leaving the States early in 1941, he participated in the defense of Pearl Harbor, and during the attack on Midway he was in command of the ground force before he could take off. "I've worn the ribbon on my fighter plane squadron in a unit Presidential citation for action on Wake Island."

As far back as 1924 Lieutenant Colonel Moore made his solo flight, and later was commissioned from the Annapolis Naval Academy, winning his wings at Pensacola in 1924. One of the youngest in the Corps to attain his present rank, he has served in China and the Philippines, among other tours of duty. He attended Cornell University and was a member of the Marine Corps while at Annapolis.

His father, Colonel Lewis E. Moore, is on active duty with the Army. Lieutenant Colonel Moore will spend a leave with his wife, Patricia Moore, 1140 Alameda Boulevard, in Colorado, California.

Red Cross Classes and Production Workshops To Start in September

Now that the only Victory Garden is reaping the final harvest and coming that last crop of tomatoes, Newton women are looking forward to renewed Red Cross activities for aiding the war effort. The Newton Chapter is planning to start many classes early in September, and will also train women to assist the hospital staffs, but will also train them to take care of themselves and families in any time of emergency.

Diabetic Aides

A course for this group will start at the Newton Hospital on Wednesday, September 13, to train women to assist in the preparation and serving of food to the hospital patients and staff. The need for these Aides is very great, due to the acute labor shortage at the hospital. Anyone holding a standard nutrition course certificate is eligible, and Mrs. H. W. Fitts, chairman of the chapter, will interview applicants at the Chapter House, 21 Foster st., Newtonville, on Thursday, September 9, and Friday, September 10, from 10 in the morning to 4 in the afternoon.

Home Nursing

A morning and an evening class will be started in Home Nursing, both to meet at the Chapter House in Newtonville. The morning class will meet on Tuesdays, beginning September 14, from 8:30 to 11:30. The evening group will meet on Mondays, starting September 13, from 7:30 to 9:30. Enrollment for both of these classes can be made by telephoning the Chapter House, 21 Foster st., Newtonville, or by calling Mrs. J. A. Wilson, chairman, plans to have other classes throughout the year. A class will start a little later in the month. Anyone interested in obtaining instruction about these can do so by telephoning the above number, and leaving her name and address, and stating the Village in which she wishes to attend a class.

## Letters To The Editor

Somewhere in Africa.

About once a month I receive a copy or two of the Graphic from the family and it really helps in keeping up with the home news.

The other day Bob Hope made a personal appearance in (censored) at the Red Cross. However, I missed him by just one day.

As a member of the Troop Carrier Command section of the Air Corps, I am wondering if there are any other Newton men in our section of the Air Corps.

We are very proud of the part our division of the Air Corps has played so far in the war, especially during the recent invasion of Sicily.

This summer has been very warm here in North Africa, but the cool nights have been a salvation. Our swimmers in the Mediterranean also have been life savers. Most of us have become excellent pickers of grapes, figs, almonds, pears and melons at nearby orchards and their delicious.

I would enjoy saying hello to all my scouts of Troop 5, Waban. William Dillaway (Newton Highlands)

Mr. E. Bradshaw will deliver one of the addresses upon the occasion of the reunion. The 39th's first engagement was at Mine Run, and subsequently the regiment participated in all the battles of the Wilderness and the closing scenes at Appomattox Court House, 19 battles and 35 engagements completing its record.

## Mayor Goddard Asks Co-operation

Thousands of Newton's citizens are serving in the Armed Forces of our Nation, standing ready and eager to give their lives if necessary. To accomplish their mission they need adequate supplies and equipment which can only be provided through our wholehearted support of the Third War Loan Campaign now in progress.

In order to assist in this campaign a group of prominent citizens are sponsoring a Books and Authors War Bond Rally and Book Fair on Friday, September 13, at the Newton High School Auditorium. The guest authors will be Dorothy Thompson for Carl Carner and Wenzell Brown. A manuscript by one of these authors will be given to the person buying the largest amount of bonds, and books by each author will be given in a Free Book Draw.

A session will be held at 2:30 in the afternoon for students of the Senior and Junior High Schools. The evening session for adults will start with the Book Fair at 6:30 followed by the Rally at 8 o'clock.

Any person buying a bond at one of the Newton Banks may ask for a receipt which should be exchanged for a Rally ticket at the office of the Newton Chamber of Commerce, 297 Walnut st., Newtonville.

I feel sure that the citizens of Newton will wholeheartedly support this Books and Authors War Bond Rally and that the goal of \$700,000 will be greatly exceeded.

## 435 Less Pupils On Opening Day

Enrollment in the Newton Public Schools on the opening day showed a net drop of 435 pupils, the attendance being 10,640 while on the opening day last year the attendance was 11,075.

The enrollment at the High School was 2311, a decrease from last year's enrollment of 2444 pupils, and in the elementary schools the decrease was 133. Enrollment at the Trade School dropped from 209 to 135.

Although there has been a tendency on the part of some pupils who have been gainfully employed to remain at work instead of returning to school it is believed that to a certain extent the drop in enrollment was because school opened earlier than last year and many families have not yet returned from their summer homes.

## Hallow'en Party To Be Held October 30

### Gala Community Event For Children Planned By Recreation Department

A gala community Hallow'en party for the children of Newton is being planned by the Newton Recreation Department, School Department, Chamber of Commerce, Police Department, and other Civic groups, who will sponsor this third annual affair on Saturday, October 30th.

A group of Newton citizens met at the Recreation Building in Newton Center last Friday to discuss and plan entertainment and refreshments for the 1943 Hallow'en festivities.

Community parties this year will have to be supported by more than the 1100 volunteer workers of previous years in order that the celebration will be a better party than last year, chairman Terkelsen stated.

The outstanding success of the parties held last year proves the value of these community Hallow'en gatherings in bringing wholesome entertainment to the children of the city. Last year more than 10,000 children attended the sectional parties. Because the children believe Hallow'en is their night of fun, they will be looking forward to even bigger and better parties this year, chairman Terkelsen added.

Other members of the executive committee and village coordinators strongly urge the support of Newton citizens in this year's celebration a happy and gala one for the children.

Mr. Terkelsen, general chairman of the Newton Hallow'en Committee, resides at 5 Coughtrie rd., Newton Highlands. He is a graduate of the Mass. Institute of Technology and has been an active member of the Men's Club in Newton Highlands. He is married and has two children.

### NEWTON COUNCIL OF CHURCH WOMEN

The Executive Board of the Newton Council of Church Women, through its committee on Community Service and Publicity, is sponsoring a church exhibition to be held in the branch libraries throughout the city during the week of September 20th.

Each member church is preparing a poster for display, and there will be exhibits of hand work. A cordial invitation is extended to all to see these.

The Newton Council of Church Women had its beginning in June 1942 with representatives from the five Protestant churches of Newton Centre, and since that time other churches have become members. Mrs. Frank Jamieson of West Newton is the President and Mrs. Archer Davidson of Waban is the Secretary-Treasurer.

The dues for small membership is open to any other Newton churches. The Council plans for the annual observance of the World Day of Prayer, and much important work can be accomplished by joining forces in this way. There are four meetings of the Board and two open meetings annually. Attention is given to civic affairs. The Education Committee is now seeking to encourage the study of peace and the post war world, or plans for a better world order. The Council is also cooperating with other agencies in work for men and women in armed services.

## Aldermen Hold Busy Session

Several Appropriations—Others Acted Upon

At the meeting of the Newton Board of Aldermen on Monday evening Mayor Paul M. Goddard recommended that the sum of \$9,500 be appropriated for the construction and acceptance of Rumford ave., West Newton from Lexington st. to the Waltham line. The recommendation of the mayor or is that the street be graded, paved and accepted under the General Law whereby the cost would be borne entirely by the city and there would be no assessment against the abutters.

Alderman John Temperley announced that he wished to raise a charter objection to postpone the action. He was informed by V. ce-President Joseph B. Jamieson that no action was to be taken except to refer the matter to the public works committee and to order a hearing. Alderman Temperley however served notice that he would raise the charter objection at the next meeting. The board ordered a hearing on the matter on October 4.

The sum of \$2,000 was appropriated by the board for the construction of a park on the triangular site at Langley rd., Boylston st. and Beacon st. The mayor had asked for a recommendation of \$2000 for the purpose.

Residents of the Thompsonville section plan to establish a War Memorial on this site and to place an honor roll of residents of that section who are in the armed services on a boulder located on the site.

A hearing was held on the proposition.

## Warren Confirmed As Commissioner Of Public Education

### To Start New Duties Oct. 1—Newton School Committee Refuses To Accept Resignation—Grants 2 Years' Leave

Julius E. Warren, Superintendent of the Newton public school system since September 1, 1934, was unanimously confirmed as Commissioner of Public School System of the Commonwealth of Massachusetts by the Governor's Council on September 8. He was immediately sworn in, in his term of office to start October 1st.

The office of State Commissioner of education carries the salary of \$8,000 a year, which is somewhat less than Mr. Warren's present salary as head of the Newton School Department. Mr. Warren's appointment is to fill the unexpired term of Commissioner Downey which expires December 31, 1946. As is well known, Mr. Downey recently resigned to resume his position as principal of the Boston Latin School.

On Thursday evening, September 9, Mr. Warren presented his resignation to the Newton School Committee. The Committee refused to grant Mr. Warren's request, but instead granted him a leave of absence for two years from October first.

Mr. Warren will bring to his new position an experience unusually wide and varied. What has already been published has been sufficient to give the public some idea of an idea of Mr. Warren's fitness for his new field of responsibility. A complete account of the Newton Public Schools will give something of an idea of his interests and outstanding abilities.

Newton Coordinator of Education Commission; American Council of Education 1930-1942; Director of Newton Community Chest since 1935; President, Newton Community Council 1936-1939; Director, Newton Rotary Club 1939; Director, Family Welfare Bureau 1935-1940; Director, American Unitarian Association; Council of Religious Education; Member, Harvard Overseers' Visiting Committee, Harvard University; School of Education on 1938; Instructor Summer Schools, Subjects, Elementary Education, Curriculum, Construction, School Administration, Supervision of Instruction; Harvard Graduate School of Education, Boston University; Isle of Shoals 1938 Lecturer, School of Religious Education; Contributor to educational magazines, New York Times, etc.; Editor, Selections from Browning.

Mr. Warren was born in Leicester, Mass., 1888, the son of Julius E. Warren, agent of the Mass. State Board of Education 1908-1914. In 1915 he was married to Elizabeth Harlan of Schenectady. The Warrens live at 115 Claremont st., Newton, where they expect to continue to reside. They have two children, Nancy Warren Riegler, wife of Lt. Robert Riegler of Aberdeen, Md., and Richard Hard Warren, a student at Harvard College, who has recently completed a course in meteorology preparatory for assignment to active service in the U. S. Army.

During this time of war man shortage, the School Committee has decided to seek a man to serve as acting superintendent until such time as the office of full superintendent may be filled. It then strengthened the administrative machinery of the school department by elevating Harold H. Gores to the position of acting superintendent. Mr. Gores graduated from the Bridgewater Teachers College in 1931 and has since earned his master's degree at Harvard. Following his graduation from college he taught at Littleton and Lexington, from which latter position he became assistant principal of the Warren Junior High School. In 1939 he was called to the Superintendent's office as purchasing agent and business administrator of the department. As assistant superintendent, in addition to his former duties, he will be secretary to the School Committee and will be responsible for much of the general administrative detail of the department.

### Will Hold First Meeting Sept. 20

The Educational Garden Club of Newton will hold its first meeting of the new club year at the home of Mrs. Percival Waters, 181 Elmwood st., Newton, Mass., on September 20, at 12:30 p. m. ## OUR SCHOOL SUPERINTENDENT IS PROMOTED

The writer feels that he speaks for the people of the city of Newton when he says that we have received with mixed feelings the news of the appointment of Julius E. Warren, for the past nine years our school superintendent, to the advanced position of State Commissioner of Education for the Commonwealth of Massachusetts. We all take pardonable pride in the appointment, we regret that we have lost the guiding hand of such a competent and able public servant.

Governor Saltonstall's appointment is doubtless being well received by the teachers, administrative staffs of the public schools of Massachusetts, school committees and by the public in general. Mr. Warren comes to his new responsibility well prepared both by professional training and successful and varied experience. Massachusetts bred and academically educated at Dartmouth, he received his professional training at Columbia University and at Harvard. His outlook has been broadened, in addition to his Massachusetts administrative experience, by work in the States of Vermont, under the Regents system in New York state and in the modernized progressive system in Ohio. Having studied Mr. Warren's career somewhat in detail, we agree with the Governor that a better prepared man could not be found to carry the torch of enlightenment in the educational pioneer state of Massachusetts than Julius E. Warren.

Mr. Warren believes that teaching is a learned profession, and not merely a means for earning a living and becoming entitled to draw a pension in the decrepit years of life. Even more, he believes that school, college and professional school training is merely the start in the field of teaching and that the teacher whose mind is not intensely interested in the progressive ideas as they develop in his or her field might better be behind a counter selling rubbers. To reach a desirable maximum salary, teachers and principals in Newton must take advanced refresher courses at Harvard, Columbia or other institutions which offer study opportunity to teachers while in service.

Last but not least important, Mr. Warren believes in genuine democracy in American education, two years ago he became the organization of the New England conference on Democracy in Education. He attempted to have the program developed and controlled democratically by New England educators and interested laymen, but was overruled by the control of the hands of the local committee with results like those to be expected under autocratic guidance. During his administration of the Newton public school system, with its nearly 12,000 pupils and its 575 employees, most important progress has been made in giving every child in the city, regardless of mental aptitudes or physical handicaps, the kind of education which will best fit them for business, industrial competence or to enter any college in the country well prepared.

Newton is proud in administering the work of the Newton system, he has made and kept his system truly democratic, not only by constant consultation with the School Committee, but even more important, with the teachers themselves by having them take part in the planning of the school year, which has held monthly conferences regularly throughout the school year. This is undoubtedly one of the chief reasons why during the past four years Newton has been one of the fourteen school systems in the country to participate in the Federal Education Program of the American Council on Education. The GRAPHIC joins others at this time in hearty congratulations to Mr. Warren and in wishing him Godspeed in assuming his new responsibilities.

Washington — When the Nazis came to power in Germany, they had every reason to fight Germany to the death. This much is known of what went on behind the locked doors in Quebec: Roosevelt and Churchill played little time to grandiose post-war plans, but paid maximum attention to winning the war as quickly as possible.

Then things happened — not only in Denmark but all over the continent. Decisive inflections and enslaved peoples and even Hitler satellites started to shake off fear of the conqueror.

Today the Hungarians are protesting that "Hungary had no part in starting this war," in Bulgaria the mysterious but fatal happenings to King Boris, friend of Hitler, forbids trouble for the Axis. Sweden's published nation refuses to be bluffed any longer. In France, the French are waiting to spring at their Nazi tormentors.

And so it goes. Now, Poland in every country where the hated boogies have become the slave-masters.

This much is certain, the rats that scuttled out of the coal barges in Copenhagen Harbor, and all the other rats that have infested the world since, will soon be looking for a safer place to hide. It is not a matter of "if" but of "when" as to when they will be as easy to find as the proverbial needle in the haystack.

## Rotary Club

Newton Rotary Club met at Blue Room Country Club on Monday, September 13th, with President Herbert N. McGill presiding. Harold Cores presented our guest speaker, the Honorable Bjarne Ursin, Consul of Royal Norwegian Consulate of Boston, who gave most interesting talk on Norway's contribution to the war effort.

He told of the great work the Merchant Fleet has done since the invasion of Norway in carrying over five million tons of shipping on all the oceans of the world. The Norwegian Merchant Fleet became an important, steady influence for Britain during the twelve months she was left to stand off the German attack alone.

It has been said that the Norwegian Merchant Fleet was worth more to England than an army of a million men. The income from the Norwegian shipping is the Government's only source of revenue and is large enough to maintain the Government in exile in London and has enabled the Government to pay all interest and meet the calls on all Norwegian bonds abroad.

The Norwegian Air Force is participating in raids on Germany and German occupied countries. A training centre was set up at the Cap and Gown, named "Little Norway" and Norwegian volunteers are being trained for this camp after risking their lives to get out of Norway. In the raid they hope they can send down enemy air craft and it is said that the Norwegian airmen flying single plane had dropped a greater tonnage of bombs on Norway than were dropped on Norway by the Germans during the fighting there in 1940.

He told of the rebirth of the Royal Norwegian Navy and the conversion of the fishing fleet to war-time ships which were used to carry out the Norwegian coast guard and to carry out the Norwegian coast guard and to carry out the Norwegian coast guard.

Mr. Ursin told of the methods that Germany used to gain the aid of the Norwegian people, the cheap, false cloak of friendship and protection, and then presented the story of an armistice, the King and the leading men of Norway recognized the Hitler hand of treachery and turned down his shrewdly worked slave terms.

## THE CITY OF NEWTON MASSACHUSETTS

### A Proclamation

By His Honor  
PAUL M. GODDARD  
Mayor

**FIRE PREVENTION WEEK** will be observed in Newton from October 3rd to October 9th. This is part of a National program designated by the Proclamations of both the President of the United States and the Governor of the Commonwealth.

The ordinary fire losses in this country each year are of tremendous proportions. A large part of the huge loss of lives and property can be prevented with proper precautions and it is even more necessary to take these precautions in time of war when man power and production are so vital.

Our Fire Department and allied services will demonstrate on Sunday afternoon, October 3rd, the equipment provided for fire protection, and will explain methods of fire prevention. We urge the cooperation of all citizens and the individual assistance of everyone in our endeavor to reduce these fire losses.

PAUL M. GODDARD, Mayor.

## Speakers At District Assembly

District Governor, Charles H. Meeker, past president of the Newton Rotary Club, 1942-43, Orville O. Clapper, vice-president of the Newton Rotary, and Dr. Cecil W. Clark, Governor's Extension Aide, were speakers at the annual 197th District Assembly of Rotary held at Worcester last Wednesday. Mr. Meeker was also chairman.

Addressing more than 350 Rotarians at the annual luncheon Chairman Meeker presented chief speaker Dr. C. M. W. Sprague, professor emeritus at Harvard University who talked on "Inflation" and the precautions to be taken after the war.

Between an introductory speech and presentations, Mr. Meeker discussed "Club Service" in an education session.

Dr. Sprague declared that if the producers agree to maintain price controls and rationing for a period of months or even a year or two after the war, and if they make an effort later to lower prices and improve the quality of their products to stimulate demand, then the power of the club will be capable of preventing inflation and of functioning satisfactorily for the masses of people.

"Inflation will happen if the policy is adopted of removing restrictions as soon as we reach the armistice stage," said Dr. Sprague. "If you are going to run the free enterprise system you have got to run it in such a fashion that there will be a less impeded flow of a greater quantity of goods to the markets," Dr. Sprague said.

Mr. Clapper, speaking on the "Job of the Vice-President," said that the vice-president is the motive power of the club and the chief engineer of a ship who takes orders from the Captain. "The vice-president is a training school for the presidency and its job, an important one, should not be taken lightly," he added.

He stressed the need for a new material to guide the club in the future so that it be worthy of Rotary principles, he added.

Rotary Extension was the topic discussed by Dr. Clark, who was past president of the Newton Rotary, 1927-28.

The speaker Dr. Sprague, was presented by Frank L. Richardson, who is also a past president of the Club.

Banks of every type, including cooperative and federal, and loan associations, will be open from 5 p.m. to 9 p.m. throughout Massachusetts next Monday, Sept. 27, for the sale of E bonds in the Third War Loan.

The first time in the history of the state that banks have remained open for such a special financial function. Activities will be limited to the sale of E bonds only. The hostess is Mrs. Josephine Estabrook. At ten o'clock on Wednesday the church is open for Red Cross sewing.

## Evening School Opens October 4

The Newton Evening School will open this year on Monday, Oct. 4, at the Technical Building of Newton High School on Elm St., Newtonville. Classes are free to residents of Newton and will meet on Mondays, Tuesdays, and Thursdays from 7 to 9 o'clock. The school runs until February, 1944.

Courses offered this year include: Pre-flight Training, Commercial, Practical Arts, and Trade Extension courses, and Elementary School, Americanization, and Citizenship subjects.

A wartime feature is the Pre-flight Training, consisting of aviation mathematics, weather, air traffic rules, and other Army Navy instructions.

Front is the title of another group of courses. It includes such timely subjects as Preparation of Foods under Rationing, Home Nursing and First Aid, Dressmaking, Knitting, and a "Handy Housekeeper" course which teaches how to make everyday household repairs.

Complete folders describing the Evening School programs may be obtained in the branches of the Newton Public Library, at the Senior High School, the Trade School, and at the four Junior High Schools. Information may also be obtained by telephone by calling BIGelow 2153.

The Metropolitan Life subscription of \$45,000,000 to the Third War Loan was an all-time-high and it must be gratifying to the policyholders of this company and other life insurance companies to learn their premium payments are taking such an active part in helping to win the War.

Incidentally, the thirty-seven representatives of the Metropolitan Life associated with the Newton District are carrying on an aggressive campaign to develop War Bond sales. In the first six days of the War Bond drive, the total sales for this group is very substantial, the leader having sold twenty-three Bonds.

Orders for War Bonds will be gladly taken by any representative of this company or through the District Office.

## HUNNEWELL CLUB

The Hunnewell Club will hold open house at the Club House for members and guests on Saturday evening, Sept. 25. A buffet dinner will be served at 6:30. Activities of the evening will include bowling, billiards and dancing.

A feature of the affair will be a drawing for V-garden vegetables which have been produced and donated to the club by members and friends. Produce so donated should be left at the Club House before 3 o'clock Saturday afternoon.

## NEWTON'S GREATEST POST-WAR NEED

It surely must be that some one or more of our wealthy citizens has lost a relative or friend through death, and that a more fitting way could be found to perpetuate the memory of that person than by providing a memorial in the form of a public auditorium for the use of the public? Or, as an alternative, several wealthy persons could combine in providing a public edifice as a memorial to the sons and daughters of Newton who are serving their country during the present conflict, some of whom will never return.

The company's optimism is backed by a concrete project. As soon as victory is won, this firm's manufacturing facilities and the skill of its trained personnel will be turned to the production of the F-4 Phantom II for the U.S. Air Force. This will be an aircraft that the average person can buy and fly and use. These three specifications cover

## Day Jr. High

Our school has opened with approximately an increase of forty pupils this year. There are 212 students in Grade VII, 194 in Grade VIII, and 207 in Grade IX. We cordially welcome two new teachers to our faculty—Miss Catherine Tobin, formerly at the Carr School, and Mrs. Lawton, a permanent substitute, who has worked with us before.

Through Miss Johnstone greetings have been received from Capt. Burkhardt who is at present stationed in New York.

Another member of the faculty, Edward Tanner, is in charge of operations at the Brant Point Station at Nantucket.

Last but not least, Major Wheeler Merriam is somewhere in the Italian theatre of war. In the summer he served under Lieutenant General Patton as executive of a battalion in the Second Armored Division of the U. S. Army. In a graphic letter to his family he related the successful invasion of Sicily.

The first assembly of the school year was held last Friday under the leadership of William Engstrom, president of Grade IX. After his welcome to the new Seventh Grade pupils, he introduced Mr. Read, the assistant principal, who prefaced the movie, "Everybody's War," which strikingly and poignantly revealed the reasons for making the Third War Bond Drive "go far over the top." In addressing the student body, Mr. Read reviewed the splendid past achievements of F. A. Day and expressed the hope that these fine standards might be maintained.

Bonds and stamps were sold for the first time this school year on Wednesday, September 22nd.

Mr. Read also explained the Book Fair and Bond Rally to be held at Newton High School on Friday, September 23rd. Free admission plus an early dismissal will be granted to those students in the junior, senior and trade school who purchase a Bond or turn in a completed Third War Bond in school.

Carl Curran, author of Genesee River, Wendell Brown, an ex-teacher in China, and also Dorothy Thompson, well-known radio commentator will be present.

The following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, is also included in the Lesson-Sermon: "In the material world, thought has brought to light with great rapidity many useful wonders. Uncle Sam's fighting men need playing cards and need a lot of them. They do not have to be new cards, but they do have to be complete. The cards are needed to white away long hours on the fighting ships, in day-rooms at the many camps, on submarines, at air bases and in hospitals. Cards wear out, are sunk, lost in battle, and have other accidents. The need is increasing daily. If you have some playing cards—in decent condition—please send them or bring them to the Citizens Committee for the Army and Navy at 13 Commonwealth ave., Boston. ### Member of Tank Crew At Salerno

Capt. Martin J. Peterson of Kansas City, Mo., son of Mr. and Mrs. Martin J. Peterson of 145 Fairway Drive, West Newton, was a member of the crew of one of eight United States tanks which fought their way up the beaches of the Gulf of Salerno under a terrific hail of fire from German 88-millimeter guns, and had a big role in beating off the first German counter attack on the American beachhead a few hours after the landings on September 9.

Master Sgt. Dave Golding, Stars and Stripes war correspondent, in a dispatch from the landing area told how two of the tanks were knocked out aboard the tank landing craft by the 88's fire and two more were lost on the shore.

The others rallied by 7 a. m. and rolled onto the little raft which was the stop of Albionia destroying three tanks, one pillbox and one ammunition truck en route and also captured two German tanks in good condition as related by Sgt. Golding.

Capt. Peterson was blown out of his tank turret when a German shell pierced the side of the landing craft and then the tank. Peterson as saying, "Inside the tank flames ran around in a circle and the next thing I remember was that I was on deck, and unbroken. Then I sat holding my head and wondering when the ammunition would explode."

Two others of the tank's crew were killed by the shell the dispatch states, two were wounded and several soldiers killed.

Capt. Peterson is a graduate of the Newton High School, also of Kansas University. He entered the service in February 1941 after graduating from the Fort Knox Officers' Training School, and became a 2nd lieutenant in January 1942. He was promoted to 1st lieutenant in September 1942 and was made a Captain in April, 1943. He has been overseas for six months.

He was married in February 1941 to Jean Lavell of Kansas City. His wife and nine months old son are now residing in Kansas City.

## Newton Scores 47-0 Win Over Rindge; Tigers Gain First Victory of Season

CAPT. MEIROWITZ AND RECCO SHINE AS SUBS MAKE GOOD IN DEBUT

By Saul Eisler

Newton High's thunderbolt version of a 1943 grid eleven routed and mauled weak and exhausted Rindge Tech 47-0 last Saturday at Dickinson Stadium in one of the most impressive opening day grid iron tussles in local sport history.

Renewing grid relationships with rival Rindge after a year interval, Vic Knapman's powerful Tiger backfield and sturdy forward wall were first in clanking to his outmanned Tech.

Paced by the brilliant all-around playing of Captain Mary Meirovitz, the Orange and Black, from the opening whistle on, kept up a steady barrage of offensive thrusts that never stopped until the final horn tooted. The single wing blitzkrieg with the formidable running attack of Meirovitz, Recco, Roberts, Flynn, Garity and Bolster was truly too much for the Tech line; while the Garden City Iron wall was powerful on offense and stubborn on defense.

Every man, 38 players in all, was superb in the opening day battle. Junior halfback Johnny Recco scored touchdowns with 33 and 59 yard touchdowns runs. Noel Roberts took time out from passing and did some remarkable running as well as being the key to the yard pass interception score. Phil Bolster, however, gave Newton an edge with two tallies and several other plays.

But the man of the day was Meirovitz. Captain Mary was a vicious tackler, backing up the line on kickoffs, and a superb punter. He was a guard angel for his teammates, full-toeters with excellent blocking skills, as well as a line smasher, an extra point specialist. Marvin Meirovitz was called the leader he was chosen to lead.

Before five minutes were gone in the opening quarter, Newton tallied twice. On the sixth play, Recco dashed around his right side from the Rindge 35 and behind the blocking of Meirovitz and the line, galloped to the Rindge 42 yard stripe. Noel then got in the clear, joined interception (Meirovitz was there), and sped down the sideline for score number two.

And then the roller began to steam. The Newton machine got to work again immediately after a Rindge punt. Two plays later, on the third, Bolster flipped a beauty of a pass to DiBlasio who walked into the end zone. The rest of the distance for the three-point tally.

The scrubs went in and that was enough first period scoring. Newton had the seconds to do the work. With the ball on the Tech 35, Recco and Bolster carried the pigskin over four plays. Bolster moved the ball to the Tech 10 and the 25. Bolster passed to Cogswell on the 9 who made a great catch. The ball was then moved to the 4 on a rush and then scored standing on the next series.

The half ended with Gorman intercepting a possible touchdown pass from Rindge on the Newton 14 yard stripe.

The second team went back in the third quarter. If just starting, Rindge kicked to Recco on the 13 and ignored our backfield. Recco reached the goal stripe. A handsome block however, Meirovitz saved the way for Recco 59 yard sprint.

Just five plays later the potent Newton strung together the tired Cambridge squad. An offensive pass caught by Bolster gave the ball to Newton on the Rindge 18. Meirovitz went around the right end to the 2 yard stripe bringing several tacklers down with him. The play was called back though for clipping, and the Tigers had to try again from the 18. This time Mary smashed his way through the left tackle, slipped and almost fell, but his driving momentum kept him going until he climaxed a thrilling 35 yard maulous run.

The second team went back in at this point and sophomore Bob Garity stole the show with several worthy runs and a couple of completed passes. In the final quarter of the ball game, Recco kicked the touchdown parade for score number seven. Bolster crashed to the 24, then to the 19 for a first down, moved to the 5, and then to the one inch line. Flynn finally carried the ball over.

The waning minutes of play saw Newton threaten again only to be halted by the final whistle. (That was about the only thing that could stop the Garden City High Newton High.)

Le. Morre, Bourne, Cogswell, J. H. Hamre, Flynn, Walsh, J. G. Murphy, Roulstone, Robb, Nugent, C. Murkin, Crafts, Hays, G. Bryson, Hutter, Coffey, Cleveland, R. Segal, Malick, O'Halloran, Recco, DiBlasio, Cogswell, Cellucci, B. Shaw, Bolster, Peck, J. B. Recco, D. Murphy, Masterson, Nagle, Bryson, R. B. Roberts, Brown, Flynn, Garity, J. B. Meirovitz, Gorman, Wilson, McKeown.

Rindge Tech (L)—Lo, Gallup, Smith, J. Culken, Sutherland, J. McKenney, Donovan, C. Conlon, Wilkey, Jr. (B)—Barton, R. Gallagher, Hogan, R. Smerlas, Hancock, qb, Adams, Lewis, qb, Becker, Silver, qb, Crocker, Bernard, J. C. Lawson, Lusk.

Periods: 1 2 3 4  
Newton High — 20 6 14 7-47  
Touchdowns—Recco (33-yard run), Roberts (intercepted pass, 47-yard run), DiBlasio (30-yard run from Bolster, 30-yard run; Flynn (23-yard pass), Recco (59-yard run), Meirovitz (30-yard run, 21 in (2-yard plunge). Points after touchdown—Meirovitz 23 (rush), Flynn (rush), Bryson (placement), Shaw (holding).

Referee—Henry Hornel (New York University); Linesman—Clement McCann (Boston College). Umpire—Richard Morey (Bridgeport Teachers College). Time—Four 10-minute periods.

Mistakes Newton was powerful and Rindge was weak, but the opposition was playing without a captain and tackle and without a star back who died last week. Still Newton was the tougher and better squad, by far.

The squad is big, hefty, and most important of all a fighting, score-crazy bunch of players. Knapman was pleased with the team, especially with the line play and fine coordination of the backs. But of course he would have wanted a close game played, a game where Newton's backs could really shine.

This opened affair gave Vic little to work on. The Orange and Black now face the toughest opponent on the list. Meirovitz, the Class B champs last year, and winners already over 42 strong Medford 6-0 and Haverhill 7-0 meet the Tigers this Saturday at Melrose. This game ought to be a humdinger and decide which side remains on top.

Although the backs received all the glory, you can't forget the whole line. The Morrell and Murkin to name a few.

The day was cloudy and overcast, and only 300 fans were on hand. Newton gained 12 first downs, Rindge made 1. Newton completed 5 first downs, Rindge 1. The Tigers lost 60 yards through penalties (2 touchdowns) and a fumble while Rindge lost 12 yards. The Black and White had the ball in Newton territory twice through the game, while the Knapman eleven was constantly in the Cambridge "backyard."

## FLAMING VICTORIES FOR THE 7th COLUMN

Sirens scream in the night. Flames turn the sky an angry red. Silver streams of water his upwards as men battle to save precious lives and property. Fire . . . America's baffling and implacable home front enemy . . . has struck again.

Carelessness and indifference — which cause most fires and accidents — are our most dangerous enemies on the home front. These enemies are America's 7th Column.

Every single day, 7th Column fires strike in a thousand homes, adding to our critical housing shortage . . . send up in smoke almost \$1,000,000 worth of valuable business and residence property . . . damage or destroy the materials, machines and factories needed to build guns, planes, tanks, and ships . . . burn up cars and trucks and buses which we need to keep our transportation system running.

By preventing fires and accidents, we can help to

make America strong on the home front . . . we can help to out-produce the enemy . . . we can help to bring the men we love home from the battle fronts sooner. UNITED MUTUAL FIRE INSURANCE COMPANY has joined with its associate, LIBERTY MUTUAL INSURANCE COMPANY, in a nation-wide campaign to reduce fires and accidents to help speed victory.

★ October 3-10 is Fire Prevention Week . . . SMASH THE 7th COLUMN ★

## Day Jr. High

"On to Victory" might well have been the motto as the lengthened lines of students lined up for the annual assembly held on Wednesday to purchase War Bonds and Stamps. The excellent response is revealed in the following figures:

Bonds — \$2,081.22  
Converted Stamp Books — 487.50  
Total — \$2,568.72  
Stamp Sales — \$358.00

Grand total . . . \$2,926.72  
This sets a record for one day's sale. The average amount of cash raised per person in the school was \$3.38.

The student body attended the Book Fair and Bond Rally held Wednesday afternoon at the Boston Globe where they heard Carl Carmen, the author, Wenzel Bucher, and Madeline Mahoney in the notorious Japanese Stanley Camp, and Gene Mack, sports cartoonist, Boston Globe.

Three past Library Council members, Marcia Cunningham, Marion Quinn, and Madeline Mahoney, served as ushers.

Robert Todd of Grade Nine, as chairman of last week's assembly, opened the program with the flag salute and the singing of the national anthem, by the student body. The first half of the hour was turned over to former staff members. The staff representatives included: Student Council, Jane Hyde; Library Council, Alfred Visco; Girls' Playground Staff, Patricia Driscoll; Boys' Playground Staff, William Busch; Cafeteria Staff, Marilyn Welch, Edwin McGill; Public Relations Staff, Ann Ryan.

For the latter half of the period, Mrs. Walter Sears, as "Aunt Sal," spoke to the assembly on the subject of "Living with the enemy." She pointed out that the enemy is still out there, and that we must be alert and prepared.

## To look him in the eye!

HE'S AN AMERICAN SOLDIER.

Some day, if God is with him, he'll come home.

And when he does, you'll get the biggest thrill of your life if you can look him squarely in the eye and say, "I couldn't help you fight—but I did everything in my power to help you win!"

There's only one way you can say that... honestly say it. And that is to help him win now... when he needs all the help you can give him.

Today's particular job for you is to scrape together

every dollar you can—and buy an extra \$100 worth of War Bonds! That's your job in the 3rd War Loan!

It's not enough to lay your regular amount of Bonds. It has to be more. It has to be an extra buy—a little more pressure for the shoulder that's against the wheel.

REMEMBER THIS—you aren't giving your money. You're lending it to the government for a while. And you're making the best investment in the world.
